

I am Akshata.S.Aneppanavar, being a MCA student, I feel proud to be a part of KLS GIT where I could grow immensely. The lectures of KLS GIT helped me to enhance my academic and interpersonal skills. My three years at KLS GIT have been a wonderful and memorable experience and I also got opportunities to expose new things. During my academic I also got expose through the industry experience. The campus is one of the most beautiful campuses with greenery. The laboratory facilities are well equipped and we get to work on some latest software. I am thankful to entire MCA department and faculties for providing us with such quality education.
